

# Five great reasons for Corporate and Employee Benefits

## The Next Generation of Employee Benefits

We provide 3 essential corporate products with strong foundations and next generation features for employees to live better, work better and retire better

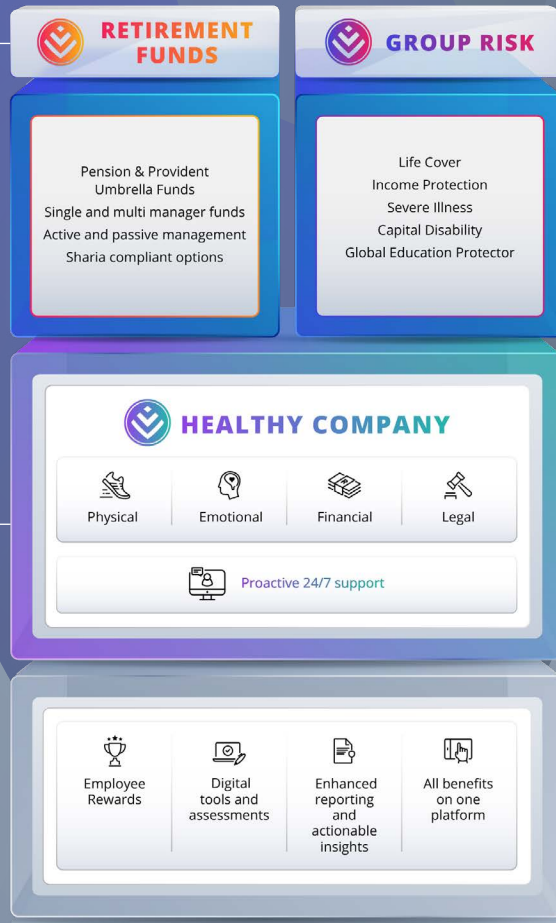

### 01 Leading investment platform

We have over 20 different top-performing funds for members to choose from, managed by leading global asset managers across different styles and strategies.

Our Multi Balanced fund is the most consistently outperforming fund in the market utilising the best, globally integrated managers.

### 02 Proactive 24/7 support

Healthy Company Employee Assistance Programme is the only programme to provide proactive support resulting in 9 times better employee engagement.

### 03 More comprehensive cover

Our industry-first **Global Education Protector** makes sure children are given the education they need, even if they lose a parent

Our **Severe Illness Benefit** is the most comprehensive, whole-body dread disease cover in the market ensuring members are supported through major health challenges

Our **Medical Premium Waiver** pays for any medical aid premium on disability when it is most needed

### 04 Employee rewards

Retirement Fund members get **boosts** on all money invested.

Vitality members earn yearly **PayBacks** on their Group Risk premiums, and extra cover on their mortgage instalments.

Group Risk members who engage in our **Return To Health and Early Intervention Programmes** earn salary-based bonuses

### 05 Greater engagement

Because all benefits live **on one site and app**, employees are more engaged so that they value and use their benefits, and get to better life outcomes

The **contribution optimiser** on our member zone lets them close their retirement gap by increasing their contributions as their salary increases

Richer data allows us to create **actionable insights** per company and so greater responses from employees
