Introducing the FlexiFund

Day-to-day healthcare needs can be unpredictable. While your Flexicare plan offers strong primary healthcare benefits, you may still face unexpected costs for things like additional medication, specialised tests, or provider fees. To help reduce these out-of-pocket expenses and give you more flexibility, your plan includes the FlexiFund, a benefit designed to support your day-to-day healthcare needs and give you greater control and confidence in managing your health.

Why the health check matters

The health check measures five key indicators:

-  **Weight status**
-  **Blood pressure**
-  **Blood glucose**
-  **Cholesterol**
-  **Smoking status**

Clinical evidence shows that when these measures are out of range, mortality risk increases significantly. By understanding your results and identifying risks early, you can take meaningful steps to improve your health and wellbeing.

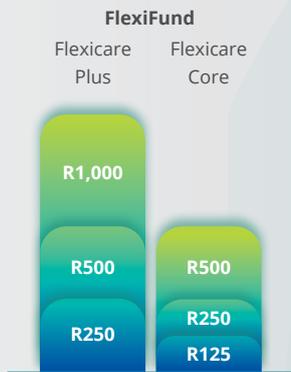

How the FlexiFund Works:

01 | Complete a health check

Every year, each adult member can earn up to R1,000 in your FlexiFund based on their health check results. A health check includes:

-  Weight status
-  Blood Pressure
-  Blood Glucose
-  Cholesterol
-  Smoker Status

02 | Earn up to R1,000 in your FlexiFund

Number of health check results in range	Flexicare Core	Flexicare Plus
5	R500	R1,000
3 - 4	R250	R500
≤2	R125	R250

03 | Use your FlexiFund

Your claims are automatically paid out of the FlexiFund when there are no available day-to-day benefits.

-  Contraceptives
-  Vaccines
-  Specialist visits
-  Prescribed medication
-  Over-the-counter medication
-  GP consults
